

TECHSKILLS

MINI PROJECT ASSESSMENT

06 FEBRUARY 2026

SUBMITTED BY

MUSRAT JAHAN

Business Name: StarTech Business College

Location: Sydney CBD

Details:

This project involves setting up a complete IT infrastructure for StarTech Business College in Sydney CBD. The business currently has only a registered name and office space, so we must design and implement all required technology systems. The college has 6 departments: Reception, Administration, Teachers, Marketing, Accounts, and Director. We will create Organizational Units (OUs), security groups, and shared folders for each department, plus an additional Students security group for future enrolments. The project includes purchasing and installing hardware such as a server, 60 classroom computers (30 per classroom), staff desktops, printers, WiFi, router, switches, CCTV cameras, and internet connection. The server will be configured with a domain controller and Active Directory, and all computers will be joined to the domain with proper permissions.

The goal is to deliver a secure, fully functional, and scalable IT environment for the college.

Users:

Name	Department
Ratan Khan	Director
Rabin Williams	Admin
Mehak Singh	Admin
Mohan Jung	Marketing
Amit Sharma	Teacher
Karan Patel	Teacher
Ruby Rana	Accountant
Rina Smith	Reception
Students	Student

Required IT Infrastructure Items:

Name	Brand name & model	Link	Price
Domain Name	startechbusinesscollege.com.au	https://www.godaddy.com/en-au/domainsearch/find?tmskey=sem_godaddy_brand&domainToCheck=startech+business+college	\$0.01 (1st year), then \$24/year
Email Service	Microsoft 365 Business Standard	—	\$22 per user / month
Server Operating System	Windows Server 2022 Standard	—	\$1,680
UPS	APC Smart-UPS 3000VA LCD 230V (SMT3000IC)	https://www.amazon.com.au/APC-SMT3000IC-Smart-UPS-3000VA-230V-b/dp/B07DM6BY1L	\$3,634.95
Student Desktop Computers	HP 23.8" All-in-One Desktop PC 24-cr0002a	https://www.hp.com/au-en/shop/hp-all-in-one-desktop-ai-24-cr2000a-pc-bd0e9pa.html	\$1,999 × 60=\$119940
Staff Desktop Computers	HP 23.8" All-in-One Desktop PC 24-cr0001a	https://www.hp.com/au-en/shop/hp-23-8-inch-all-in-one-24-cr1000a-pc-a0ef3pa.html	\$1,199 × 8=\$9592

Note: All listed users have been assigned Microsoft 365 licenses, giving them full access to Microsoft 365 tools needed for their roles at Startech Business College.

Microsoft Teams – Team Creation

You received a ticket to create a Private Team called 'Training Team' and add a Private Channel called “Team 1”

- a) Create a Team and Private Channel add a few existing members

- b) Why would you choose Private instead of Public?

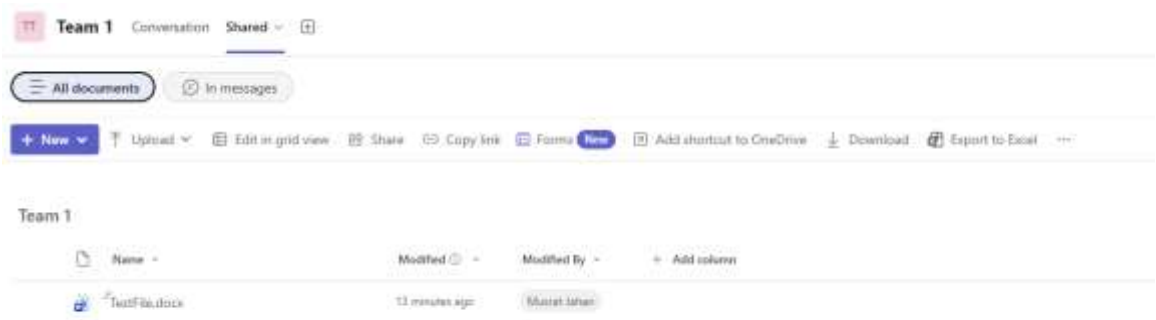

Answer: Using the Public channel would mean everyone in the team would be able to see the channel, hence going with the private channel could be better in terms of selective people of the team could see it.

Where are files stored when uploaded to a Teams channel?

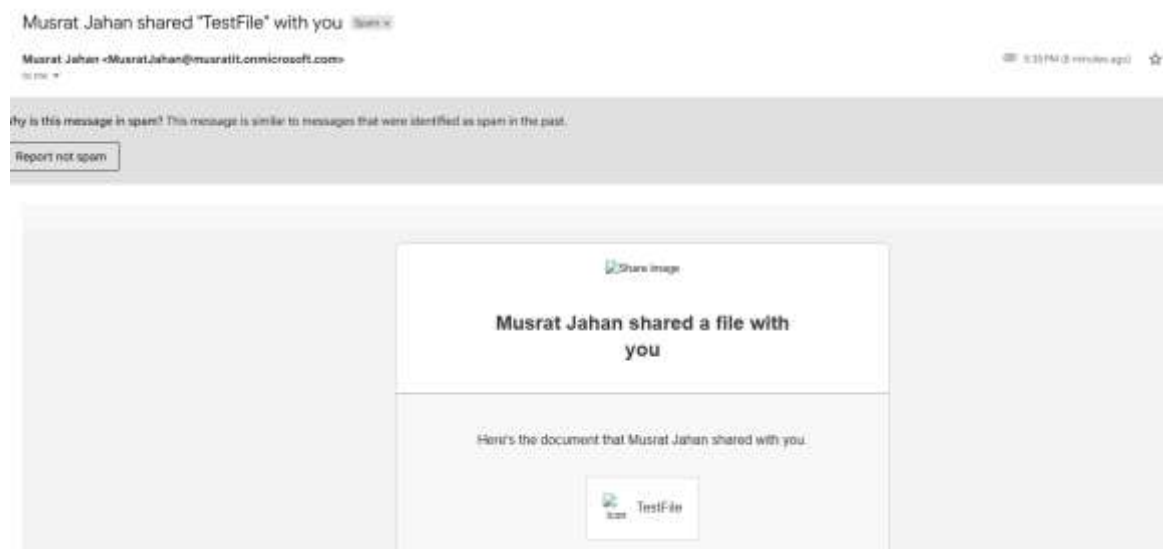

Answer: Files uploaded to a channel in Microsoft Teams are stored in the team's SharePoint site (in the channel's folder).

Microsoft Teams – File Sharing

- a) Create/upload a test file called **TestFile** file and share it with your personal account/email with edit access

Here is

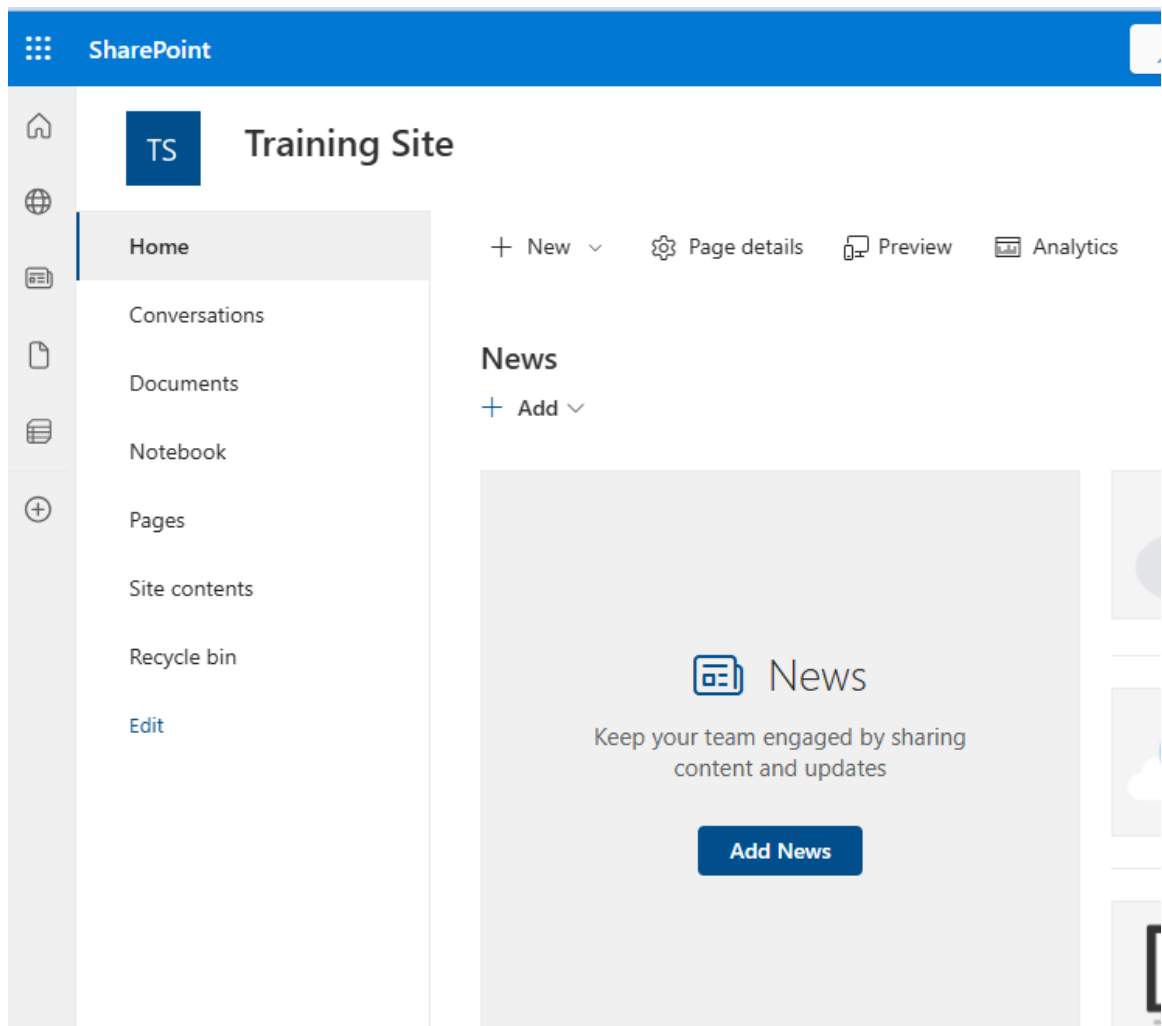

b) In what scenario would you do this external sharing?

Answer: External sharing in Microsoft Teams is used when we need to share files or collaborate with people outside organization, such as clients, vendors, or partners.

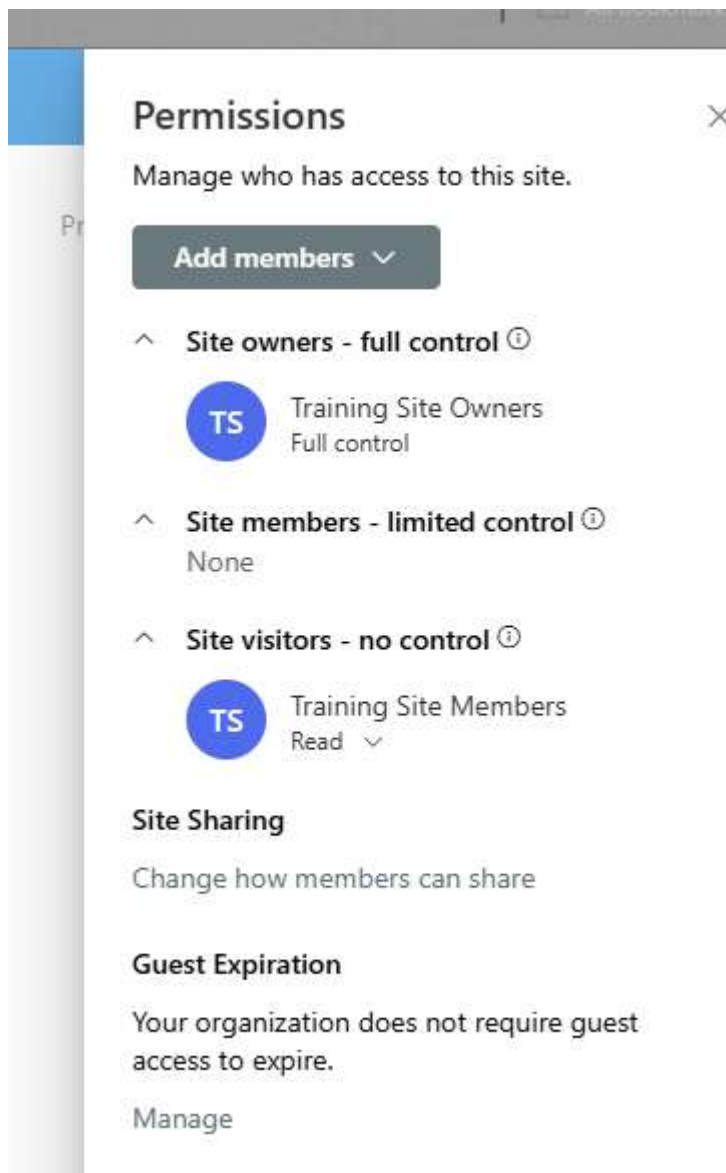

SharePoint – Permissions

Create a Sharepoint site called “Training Site” and add existing members

a) Which permission role should you assign if you have to assign a user with **read-only** access to a SharePoint site

Answer: Assign the “Read” permission role for read-only access.

b) What could happen if you assign **Member** access instead?

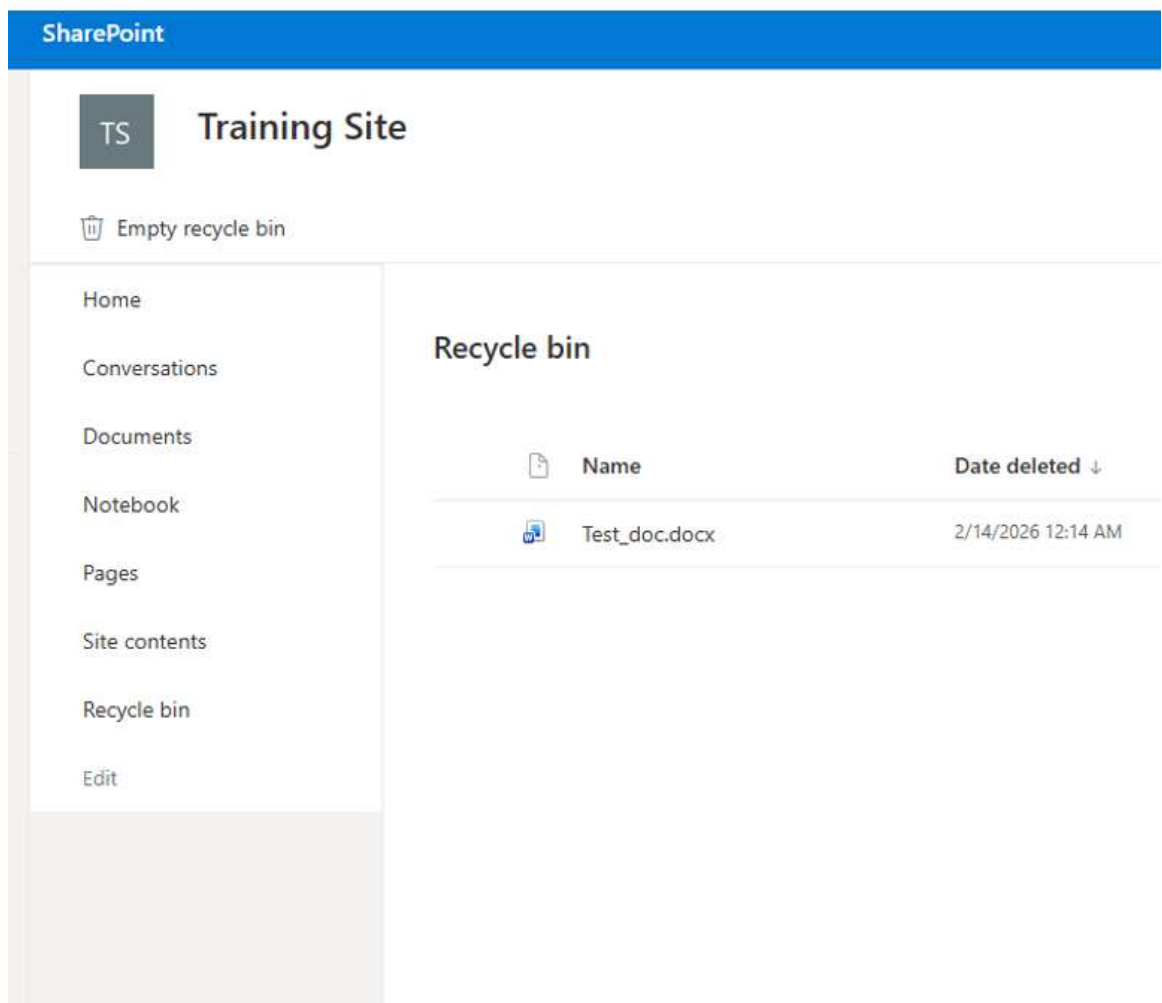

Answer: The user could edit, add, or delete files and content, which may lead to accidental or unauthorized changes.

Sharepoint – File Recovery

A user deleted a file 10 days ago

a) Where do you restore the file from

Answer: Restore the file from the SharePoint Recycle Bin.

b) How long are deleted files retained by default in Sharepoint?

Answer: By default, deleted files are retained in SharePoint for 93 days before permanent deletion.

Exchange Online – Shared mailbox

Create a Shared mailbox for the Design team and assign two existing members

Shared mailboxes

A shared mailbox can be used by a group of people, like a support team, to receive and send email from the same email address. Select a shared mailbox to add or remove members, set up automatic replies, manage aliases, and more.

Mailbox
Others

Send as (2)

The Send as permission allows the delegate to send an email from this mailbox. Message will appear to have been sent from this mailbox owner.

Edit

Read and manage (Full Access) (2)

The Full Access permission allows a delegate to open this mailbox and behave as the mailbox owner.

Edit

- Does a Shared mailbox under 50GB require a license?
Answer: No, a shared mailbox under 50 GB does not require a license.
- What permissions allow users to send email from that mailbox

Answer: Users need “Send As” or “Send on Behalf” permissions to send emails from the shared mailbox.

Exchange Online – Message Trace

Perform a message trace on one of the existing email accounts and attached a screenshot here:

Home > Message trace > Message trace search results

Message trace search results

- a) A user reports an email was not received to his mailbox. In what way does Message trace help?

Answer: Message trace in Microsoft Exchange Online helps track the path of an email through the system. It can show whether the email was delivered, delayed, failed, or blocked, helping identify why the user did not receive it.

Exchange Online – Domain or Email block/Allow

A user keeps receiving phishing emails from a specific sender: phishing@xmail.com a) How can you block that specific sender at the tenant level?

Answer:

Block the sender using an Anti-spam policy in the Microsoft 365 Defender portal.

- b) What is the difference between blocking at mailbox level vs tenant level?

Answer:

- Mailbox-level block → Applies only to a specific user's mailbox, so other users may still receive emails from that sender.
- Tenant-level block → Applies to all mailboxes in the organization, preventing that sender's emails from reaching anyone.

Exchange Online – Transport Rule (Mail Flow Rule)

Create a rule so that when emails are received from finance@external.com, they routed to you for approval

After your finish creating this rule, it is turned off by default until you turn it on from the Rules page

Rule name

Rule for

Rule comments

Rule conditions

Apply this rule if

The sender is 'finance@external.com'

Do the following

Forward the message for approval to the sender's manager

Except if
